ITHACA PROFESSIONAL FIRE FIGHTERS ASSOCIATION SUPPORTS RIGHT TO UNIONIZE

In 1938, New Yorkers amended their Constitution to provide for the ‘right to organize and collectively bargain through representative of their own choosing.’

Five years later, Local 737 was established – and it has and continues to be an advocate for the women and men that serve our city. The priorities of our 65 members are unwavering – to ensure for the safe and stable work environment, fair wages and benefits, and access to the essential resources, training and equipment required to protect one another and our community.

The Ithaca Professional Fire Fighters Association (Local 737) supports the parallel rights of Bangs’ employees to organize and collectively bargain – the same fundamental rights that were extended to its fire fighters nearly 80 years ago.
